

**Step 8:** Position Unit B4, (Row-4) onto the top of Unit B3, (Row-3) with **right-sides-together**. Match and pin both pieces together at each cross-section.

**RIGHT SIDES TOGETHER**

**Step 9:** Remove the foundation papers under Row-3 without disturbing the pins. Then sew both strips together with Row-3 next to the feed dogs.

**Step 10:** To finished the star point, remove the foundation papers from under Row-4 and press the seam towards Row-3.

Repeat Steps 1-10 for each star point.

**ASSEMBLING THE 10" BLOCKS**

**Foundation Paper:** Remove the foundation paper from any of the remaining pieces.

**Step 1:** The blocks are sewn together in the order shown in the following Block Layouts. The graphics were drawn as if you were looking at the front side of the fabric. The pieces are sewn together with right-sides facing together. The Template and Unit Placement is shown below.

**Step 2:** Use the arrows as your pressing guides for all seams. The seams are pressed clockwise on the backside of the fabric, **which appears counter-clockwise from the front side**. Only half of the units is shown in the graphics through Step 5 so the images could be larger. Complete each of these steps for the top and bottom half of the Star.

**Step 3:** The **Star Points** are joined and sewn onto the **Unit A** pieces. The joining seams are pressed in opposing directions.

**Step 4:** The **T-Template A-1L and A-1R** pieces are joined and sewn onto the **Star Points**. The joining seams are pressed clockwise on the backside of the fabric.

**Step 5:** The **T-Template A-2L and A-2R** pieces are joined and sewn onto the **Star Points** to complete (16) triangles. The joining seams are pressed clockwise on the backside of the fabric. Do not complete any additional sewing. These blocks will be completed with the rest of the quilt in wedges.
