

**Cutting Information:** Some of the templates and template layout sheets are **directional** which means the fabric can only be stacked and cut in one direction. Pay close attention to the information on how to stack your fabrics in both the cutting instructions and on the templates before cutting any pieces.

The fabric pieces for the template layout sheets are cut larger than the template layout sheets themselves.

**Note:** Cut only the number of fabric pieces stated for each template layout sheet. Cutting too many will make you short of fabric.

**Note:** If you are using batiks, you may not recognize a right or wrong side to the fabric. Either side is fine. Just cut the correct number of pieces required.

**UNIT-H: Cutting Instructions: Bag #1:**

**Templates H-1, H-2, and H-spike: Make 24 H-Units:** The templates for H-1 and H-2 are printed on a template layout sheet. The layout sheet measures 6-1/2" by 10". Cut out around the layout sheet but don't cut the templates apart.

**Cutting Fabric:** From each of your blue fabrics cut the following strips, then crosscut the strips into rectangles as stated below. You will need a total of 24 rectangles to complete the background pieces for all the Unit-H foundation papers.

**Blue Color #1: Four Units:** Cut (1) 7" by 42" strip:  
Crosscut the strip into (4) 10-1/2" by 7" rectangles.

**Blue Color #2: Twelve Units:** Cut (3) 7" by 42" strips:  
Crosscut the strips into (12) 10-1/2" by 7" rectangles.

**Blue Color #3: Eight Units:** Cut (2) 7" by 42" strips:  
Crosscut the strips into (8) 10-1/2" by 7" rectangles.

After the large rectangle pieces are cut, stack the fabric pieces for colors #1 and #3 into one pile. Place the fabric for color #2 into another pile. Place one template layout sheet for Unit-H on top each stack of fabric.

Slice through the paper and fabrics together to cut the individual sections apart. Start cutting on Line 1, finishing with Line 7. Separate the pieces for each color into individual bags and place them in Bag #1.

**Note:** Do not trim any excess fabric from around the templates. The extra fabric is trimmed away during the paper piecing process.

**Note:** When you are done cutting you will have five stacks for the H-2 template. You will only use four stacks, the other stack can be placed with your scraps.

**H-spikes: Dark Fabrics:** Cut (1) 7" by 18" rectangle from each of the twelve dark fabrics. Stack the rectangles into one pile and crosscut (10) 1-1/2" by 7" strips from each color for a total of 120 pieces. Place these pieces into Bag #1.

**UNIT-CG: Cutting Instructions: Bag #2:**

**Templates CG-1, 2, and 3: Make 24 CG-Units:** A quarter square triangle is used to cut the pieces for Template CG-1 which are used for the geese. Templates CG-2 and CG-3 are used to cut the background fabrics. Place these pieces for Unit-CG into Bag #2.

**Background Fabrics:** Cut the following strips and rectangles from your blue background fabrics. Templates CG-2 and CG-3 are both directional templates. **Note:** If your fabric has a right and wrong side, you must stack fabric pieces right side up before cutting.

**Blue Color #1: Template CG-2: Four Arcs:** Cut (2) 4" by 42" strips. **Stack the strips right sides up.** Crosscut the strips into (16) 3-1/2" by 4" rectangles. Stack and slice the rectangles into 32 pieces. Each rectangle yields 2 pieces.

**Blue Color #2: Template CG-2: Twelve Arcs:** Cut (4) 4" by 42" strips. **Stack the strips right sides up.** Crosscut the strips into (48) 3-1/2" by 4" rectangles. Stack and slice the rectangles into 96 pieces.

**Blue Color #3: Template CG-2: Eight Arcs:** Cut (3) 4" by 42" strips. **Stack the strips right sides up.** Crosscut the strips into (34) 3-1/2" by 4" rectangles. Stack and slice the rectangles into 64 pieces.

**Medium Blue Color #4: Template CG-3: Color #4 is the outside background piece on all 24 Arcs.** Cut (10) 4-1/2" by 42" strips. **Stack the strips right sides up.** Crosscut the strips into (96) 3-1/2" by 4-1/2" rectangles. Stack and slice the rectangles into 192 pieces.

**Dark Geese Fabrics: Template CG-1:** Cut (4) 6" squares from each of the 12 dark fabrics for a total of 48 pieces. Cut the squares diagonally into four quarter square triangles. You need 192 pieces.

**UNIT-CGM: Cutting Instructions for Bag #3:**

**Templates CGM-1, CGM-2, CGM-3, & CGM-Spike: Make 12 Units:** Keep the colors separated and place them into Bag #3.

**Background Fabrics: Templates CGM-1, CGM-2, CGM-3:** Cut the following pieces for each template from the blue background fabrics. Stack the fabric pieces according to the instructions for each template.

**Blue Color #2: Four Units: Template CGM-1:** Cut (4) 2-1/4" by 16-1/2" strips: Stack fabric pieces **wrong sides together.** Slice the pieces on the diagonal line as shown below in the graphic. You need 4 left and 4 right for a total of 8 pieces.

**Blue Color #3: Eight Units: Template CGM-1:** Cut (8) 2-1/4" by 16-1/2" strips: Stack fabric pieces **wrong sides together.** Slice the pieces on the diagonal line as shown below in the graphic. You need 8 left and 8 right for a total of 16 pieces. Each strip yields two pieces.
