68" by 68"

General Information

The Art Deco Sawtooth Wedding Ring utilizes a combination of foundation paper pieced melons and template rulers designed by Bradley and Judy Niemeyer. Template rulers that complement this pattern are available for purchase. More information is provided later in the pattern. These rulers are designed to work with all of Quiltworx.com's wedding ring quilt designs as the dimensions of the arcs, melons, and centers are standardized from pattern to pattern.

The pattern included, herein, provides yardage and techniques needed to make the cover quilt. A table of adjusted yardages to increase the quilt size is provided. Yardage information assumes that your fabric cuts are 42" in width (selvage to selvage). More fabric may be required if fabric is less than 42".

The Art Deco Sawtooth Wedding Ring is part of the Quiltworx.com Wedding Ring series. It presents a new piecing concepts for the melon section (the Sawtooth Melon) of a traditional wedding ring quilt. Special thanks to Hoffman California Fabrics for providing the fabrics used in the cover quilt.

Foundation Papers: Our foundation papers are printed on newsprint. Newsprint is lightweight and tears away from your stitches without damaging the threads. This pattern includes the following pages of newsprint, which includes enough foundation papers and template layout sheets to complete the quilt included on the cover.

Inventory #	Unit Name	Quantity
NP207	Sawtooth Melon	4 Sheets
TP104	Wedding Ring Templates	1 Sheet

Corrections: If corrections are needed for this pattern after publication, they will be listed on the Quiltworx webpage at <http://www.quiltworx.com>. To find them, click on the Pattern Gallery, the Art Deco Sawtooth Wedding Ring pattern, and go to the right side of the page. Scanning the code to the right will take you straight to the appropriate location. If there are no corrections listed, no errors have been identified in your pattern! If you run across something you think may be an error, please let us know and we will either post a correction, or clarify the issue for you.

General Supply List: Steam iron, ironing board, medium size cutting board, 6" by 24" ruler, small scissors, rotary cutter, seam ripper, template plastic, spray starch and a sewing machine with a quarter-inch foot.

Paper Piecing Supply List: 12" *Add-A-Quarter* ruler, Scotch tape, fabric glue pen and stic, flower pins, Purple Thang, Microtex Sharps (size 70 sewing needles), and a high-quality sewing thread. To keep your templates and fabrics organized you need large plastic bags, small binder clips, and large paper clips.

Wedding Ring Templates: Wedding Ring Templates: Templates are included in the pattern on newsprint TP104 to cut the centers, arcs, and corners, but it is highly recommended that to complete this pattern, you purchase a set of Wedding Ring Templates. These templates provide you an excellent trimming edge and can be used over and over for this pattern and future wedding ring designs. Templates made by Creative Grids are available for purchase on our website by scanning the code to the right. If you do not have a handheld device that can scan, please visit the following website: <http://store.quiltworx.com/product-p/cgrdwr.htm>.

Definition of Common Terms and Tools

Purple Thang: A small plastic tool used like a stiletto that does not poke through the fabric. The Purple Thang is used to help work the fabric between the presser foot and feed dogs when sewing over several seams.

Add-A-Quarter: A small ruler with a quarter-inch lip on the bottom side used to trim the quarter-inch seams for foundation paper piecing. These rulers come in three sizes, 6" 12" and 18" lengths. For this pattern a 12" ruler is recommended.

Washout Fabric Glue Stic or Pen: I use a water soluble fabric glue stic (Uhu is a good brand name) or pen (Fons and Porter) to adhere the first piece of fabric to the *backside* of the foundation paper.

Fold Template: A flat piece of template plastic used as a straight edge while folding back the foundation papers just before trimming with the *Add-A-Quarter* ruler. A 3" by 12" piece of template plastic should be cut to use with the 12" ruler.

Flower Pins: Flower pins are a long pin with a flat flower glued to the end of each pin. The flower is flat so the paper can easily be folded back over the pin and still lay flat.

Sewing Lines on the Foundation Papers: The sewing lines on the foundation papers are the dark solid lines separating each section. The lines are marked in chronological order starting with Line 1, 2, 3, etc.

Dashed Lines: These lines are reference lines marking the edge of your 1/4" seam allowance. *Do not sew on these lines.* The dashed lines can be used to help you locate the actual shape and size of each section on the *backside* of the paper.

Sewing Fabrics to the Foundation Paper

When sewing the fabrics to the foundation paper, each fabric piece must cover the underside area plus the extended seam allowance for each section sewn. The dashed lines can help you locate the area to be covered using three different methods:
