Combined yardage, Seashell, Fabric #11 & Fabric #12 = 3/4 Yard		

PART 2: Cutting Instructions

Cutting Instructions, Bag #1: VC-Unit E

Step 1: VC-Unit E Accent Temp VCE-1; Remove the (2) 3" x 42" strips cut from Fabric #1 along with the VC-Unit E Accent Temp VCE-1 in Bag #1.

Step 2: Open, press and stack the strips right-side-up. Position the VCE-1 Accent Template as shown and cut (4) fabric pieces.

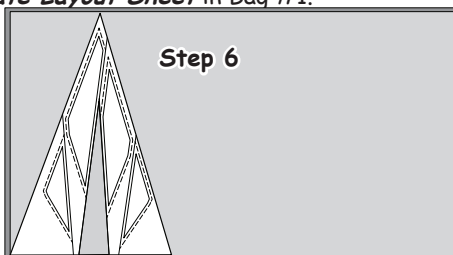

Step 3: Stack the four pieces under the template and cut the template in half, diagonally, along the designated Cut Line to yield (8) pieces. Note: Placing a large paper clip along the edge of the fabric on each template section before you cut on the Cut Lines will keep the paper from moving while cutting and keep the templates and fabrics together for each section after cutting is done.

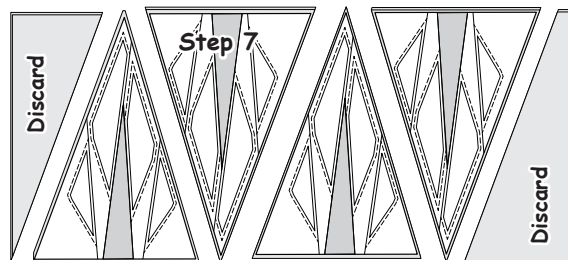

Step 4: Place the VCE-1 Templates and fabric pieces back into Bag #1.

Step 5: VC-Unit E Background Template Layout Sheet; Remove the (2) 23-3/4" x 42" strips, (one strip was cut from Fabric #2, the other from Fabric #3) along with the VC-Unit E Background Template Layout Sheet in Bag #1.

Step 6: Each strip is pressed open then stacked facing right-side-up. Position the VC-Unit E Background Template Layout Sheet on your fabric strips as shown.

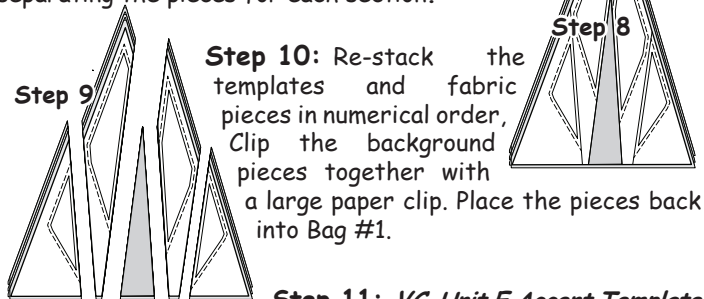

Step 7: Cut (4) fabric pieces from each strip to match the size and shape of the template layout sheet. Each time you cut you will need to flip and reposition the template on your fabric.

Step 8: Restack the pieces into (1) stack, placing the pieces cut from Fabric #3 at the bottom of the stack and the pieces cut from Fabric #2 on the top of the stack.

Step 9: Place a paper clip along the edge of each section to secure the layout from moving. Starting with Cut Line 1, cut on each Cut Line 1-4 separating the pieces for each section.

Step 10: Re-stack the templates and fabric pieces in numerical order, Clip the background pieces together with a large paper clip. Place the pieces back into Bag #1.
