Instructor: Anne Hall

“I just wanted to let you know about an exceptional Quiltworx-Certified instructor in Nanoose Bay, BC Canada. Anne Hall was such a delight to learn from. Not only does she have a beautiful and spacious instruction space/studio but she lives in a dreamy location with a view of the water and lunch breaks could be spent on the deck. But her style of teaching is what many instructors could learn from. Maybe it's because she has worked as a teacher for years, but her patience, warmth and planned approach all made the days feel productive and low-stress. She's also just a really nice person. But her quilting skills are most admirable and she knows how to share information in a way that makes a student feel confident about taking on new methods. Really, she is the best quilting instructor I have ever had the pleasure of spending class-time with! You are very lucky to have someone so excited about your patterns and methods who is also so good at encouraging others to try them out and so adept at helping them work through the details. I'll be back in her studio for another class for sure!

Thanks, Gail”
