

ALLISYN'S WONDERED LAND WITH FABRIC REFERENCES

If you have used Quiltster to create your own color layout, fabric references are included in the program that tell you which fabric references apply to which pieces in the quilt. You can find these in the block editor, listed directly beneath the top list of swatches that you have used in the quilt. This makes a seamless tie back to the pattern. Use this drawing and the Fabric Reference Information in the Unit Charts throughout the pattern as a reference. To see what it will look like before you make your final decision, use Quiltster!
