PART 2: TRIMMING AND CUTTING THE PAPERS

Step 1: When the piecing is finished, the excess fabric and paper is trimmed off along the top and bottom edge of each foundation sheet. There are two solid lines printed around the perimeter of the paper. The last line that borders the edge of the foundation sheet is the trim line.

Step 2: Place each foundation sheet on your table with the paper side up.

Step 3: Next, trim the edges off the first and last row and top and bottom. Find the three lines referred to as **Part 2 Cut Line 1, 2, & 3**. These are your cutting lines. Using your ruler and rotary cutter, cut each line to separate the four rows.

Step 4: Next, trim off the tips and the shaded areas to complete the cutting for all the excess fabric and smart corners.

Step 5: Clip the pieces for each row together and set aside. Repeat Steps 1-5 to complete the remaining Sheets.
