Cutting Instructions Fabric A1:

NOTE - Cutting your T-Templates: We added an extra cut line around each template so you could easily cut around the templates before cutting each template to the actual size with your rulers. This makes it a little easier to handle several layer of fabric in a stack when cutting small pieces.

Step 4: Cut (6) 5-1/2" by 42" strips, from Fabric A1. Stack the strips facing right-side-up. Using T-Template C and T-Template D. Then Crosscut (7) pieces with each template. [42 Total per Template]

Step 5: The Creative Grids Templates C & D are used to complete the cutting for each stack of (6) pieces.

Color 5 is Facing Wrong-Side Up

ď

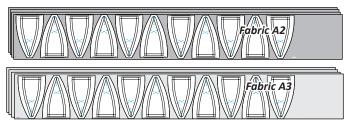

NOTE - Paper clips can be used to keep the template and fabric pieces together while trimming to the actual cut size with a straight edge rule if you don't have the Creative Grids Templates.

Step 6: Place Template D in Bag AL, and Template C in Bag BR.

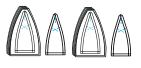

► Cutting Instructions Fabric A2 & A3:

NOTE - Cutting your T-Templates: Extra cut lines were added around T-Template E as well to help simplify the cutting process.

Step 7: Cut (4) 5-1/2" by 42" strips, from each Fabric A2 & A3. Stack the strips for each fabric facing *right-side-up* and cut (42) pieces from each fabric using T-Template E.

Step 8: Stack (6) fabric pieces beneath the Creative Grids Template E and complete the trimming to the actual size of the Template.

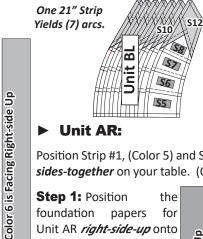

NOTE - Paper Clips: If you are using the paper templates use paper clips to hold the templates in place.

Step 9: Mark, and sew each TRP Line with a basting stitch length 2.8. Place the pieces cut from Fabric A2 into Unit Bag AL and the pieces cut from Fabric A3 into Unit Bag AR. You no longer need Bag 5.

NOTE - Special Note!: The paper piecing steps for Unit AR and Unit BL on page 8, 9, &, 10, are different than the steps written for Unit AL & BR on Page 11. The paper piecing for Unit AL & BR includes adding the pieces cut with Template C & D between sewing Strip #3 and Strip #4. So pay attention to the instructions written for Steps 13-17 on Page 11. If you don't you will most likely end up rebuilding the Units!!!!!!

STRIP PIECING UNIT AR & BL: EACH STRIP SET YIELDS (7) ARCS

Swatches: A small fabric swatch should be cut off the end of each strip before you begin the strip piecing. The fabric swatches are paired up with the section numbers on each unit. One fabric swatch is glued to each section on the first piece of your foundation paper for each Unit AR & BL. This should be done with each Ring Color Set.

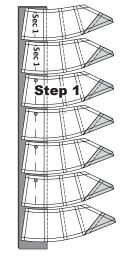

Unit AR:

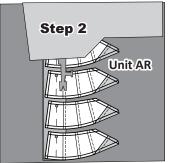

Position Strip #1, (Color 5) and Strip #2, (Color 6) rightsides-together on your table. (Color 5) is on the top.

Wrong-Side Up

Step 1: Position the foundation papers for Unit AR *right-side-up* onto the wrong-side of Color 5. Center Sec. 1 over the fabric, lining up the dashed

line located next to Line 1 with the raw edge of both fabric strips. Place a couple pins in each piece to secure the pieces before you sew. The papers are positioned about 1/4" apart. Each strip is long enough to fit (7) units. If you don't get seven pieces, re-adjust the distance between each foundation unit and make them fit.

NOTE - Spacing the Units: The extra space between each paper is needed so the papers can be pressed and cut apart after the papers have been sewn onto the fabric strips.

Step 2: Carry the strips and papers to your machine. Start sewing on Line 1, stopping just

before you get to the bottom of the third piece.

NOTE - Adding the Papers while Sewing: Once you figure out the process you can actually add the papers onto the strips as you sew instead of pinning them onto the papers. When sewing the papers onto the fabric strips, position them onto the strips as straight as possible.

Step 3: When you are done sewing, carry the strips and papers over to your ironing board. Position the paper face down. Finger press the seam open. Use a light steam iron and press the strips. Keep the strips straight as you press.
