ASSEMBLY GRAPHIC CORRECTION

Oops! When we built this graphic, we forgot to flip it over to the fabric side instead of the newsprint side. Please use the Illustrations #1 to #5 as shown to the left to build each graphic instead. The Illustration #5 graphic has been fixed throughout the remaining Assembly graphics on Pages 7 to 11 as well in new patterns printed. But, we did not issue a correction for each of these graphics as it doesn't impact the final assembly process of the quilt. As long as your block looks like Illustration 5 when you start, everything in the instructions is correct! No text changes were required for this correction as well.
