

Quiltworx Block of the Month

Wall: 84" by 84"

Smart Corner Correction

Oops! We apologize, but we built the Smart Corners incorrectly at the following locations. Please disregard them on these intersections until we can get corrected papers printed. Go ahead and try to match them up and if they don't fit, then you do not

have corrected papers. The first 1,000 patterns were printed with incorrect corners. If they do match up, then you know you have papers that are corrected.
