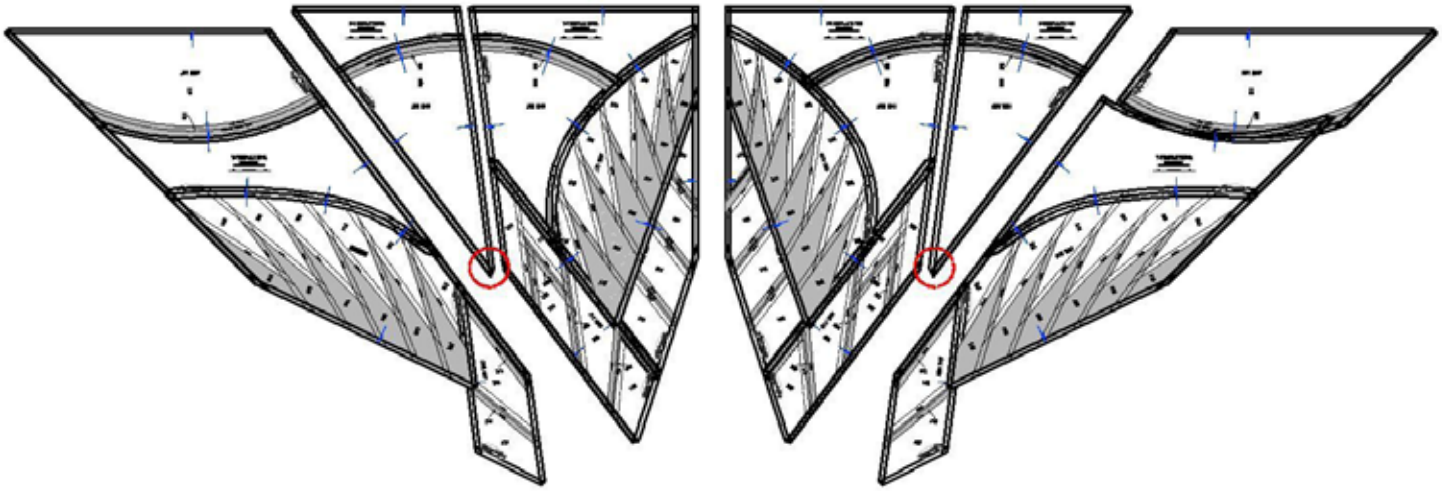
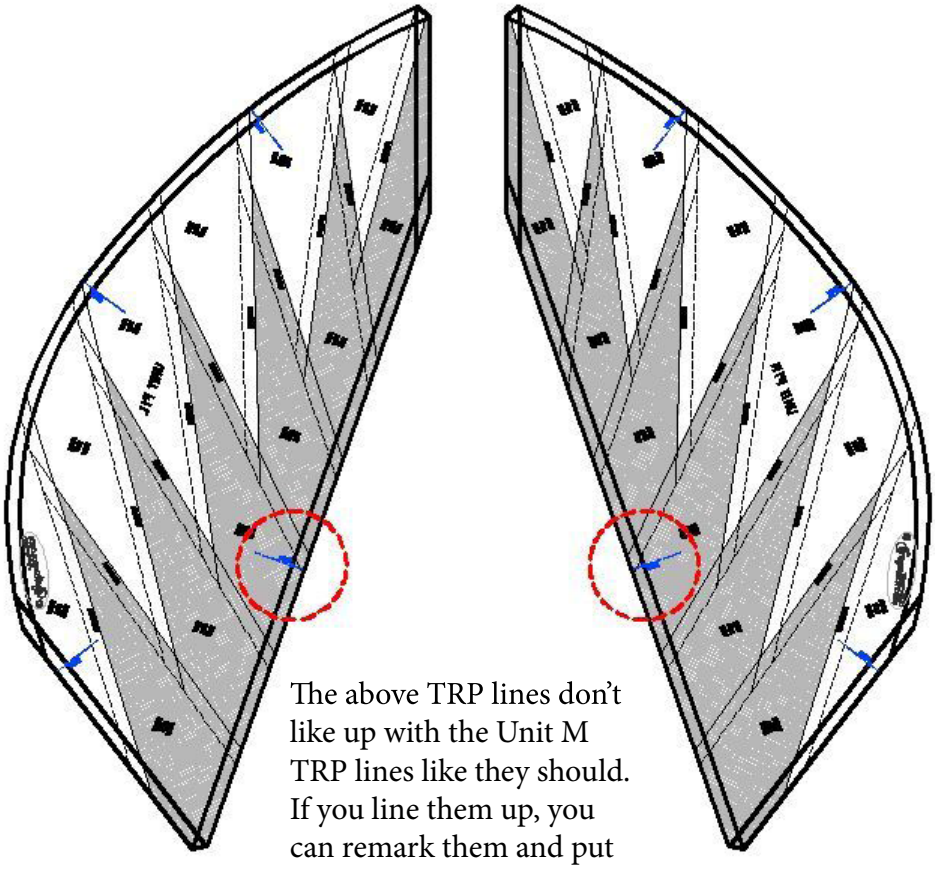
Crimson Poppy

Quiltworx.com

Quilt Size: 68" x 68"



The noted Smart Corners Above were made in correctly. It will be fixed on the next printing. Ignore the Smart Corners if they don't match. You don't need to trim them if you don't want. Or, trim and if they don't match, just align the TRP lines and the other edge and move on.



The above TRP lines don't like up with the Unit M TRP lines like they should. If you line them up, you can remark them and put them in the right place. This will be fixed on the 2nd printing of newsprint
