

out of the center star. The Tweaking Diagram was built to show the seams on the backside of the quilt pressed counter-clockwise (while they are shown clockwise on LP 31, looking at the pressing from the front side of your quilt).

**Backing & Batting:** You will need (2) 106" to 108" inch lengths (how much excess to leave on each side of the quilt is personal preference, but we aim for 6" to 8" around the perimeter) for the backing of your quilt for a total of 9 yards. Quiltworx.com recommends Hobbs 80/20 (90" wide) batting on a roll or similar to get a nice, thin, but flexible finish to the quilt.

## QUILTING DESIGNS

Quiltworx.com has completed a variety of digitized quilting designs for several of our patterns. We have digitized several designs to fit the blocks in the layout on the cover. You may want to check these out on our website. Find them quickly by scanning the QR Code on the back page in the bottom right corner and looking for related products.

## DOUBLE FOLDED BINDING INFORMATION

After the quilt top has been quilted, you can add the binding. Quiltworx.com recommends a 2-1/2" strip, ironed in half, lengthwise, then sewn to the front of the quilt and hand stitched down to the backside. The 99" x 99" layout requires (10 to 11) strips, for a total yardage of 25" to 27-1/2", or 7/8 yard of fabric.
