

**Fabric AB-A1:** The T-Template Layout Sheets are used to cut the sashing pieces sewn between each star point. We used (3) different colors for Fabric #AB-A1. The (3) colors are referenced as Fabric AB-A1:a, AB-A1:b, and AB-A1:c. If you choose to cut your sashing from only one color, reference the total yardage in the Unit Chart under **Optional Fabric #AB-A1** provided with the cutting instructions. Yardage for Fabric AB-1 is provided in the table below the Fabric Layout Graphic.

► **Unit Block Fabric Layout**

\*Unit Block Layouts are referenced on Page 7 for each Bag of (8) Units.

**Diamond Block Color Groups:** If you are using a kit or following the color concept shown in the cover quilt, just using different fabrics, you will want to reference this section on Diamond Block Color Groups. If you are doing your own colorway completely, or using Quiltster, you can skip this information.

The cover quilt uses four different combinations of fabric to complete (4) different Color Groups for the Diamond Blocks. A small letter of the alphabet has been assigned to the Fabric #s S1-S16 to distinguish the difference between each Color Group.

- Diamond Block Color Group A (CGA): Fabric S1:a -S16:a
- Diamond Block Color Group B (CGB): Fabric S1:b -S16:b

- Diamond Block Color Group C (CGC): Fabric S1:c -S16:c
- Diamond Block Color Group D (CGD): Fabric S1:d -S16:d

On Page 7, we provided (6) diamond layouts, for you to apply swatches to (adhere them to the paper with glue), which will help you build your fabric reference charts for this pattern. Color Group B is the same for Bags #AB-2 and AB-3. Color Group C is used for both Bag #AB-4 and #AB-5. Shading has been added to help you quickly find diamonds that use that same fabric.

Take some time and study the blocks shown here as they compare to the # of Strips to cut in the chart below. We used 12 fabrics (F1 to F12) and repeated them throughout each of the Diamond Block Color Groups. It is easy to see that Fabric 1 (F1) was used for S4:b, S7:b, S10:b, S13:b. Counting up the diamonds on Page 7 where F1 was used, you can see that (8) 2-1/2" x 42" strips are required.

**NOTE - Quiltster:** In Quiltster, you may notice that your fabric references all have an AB- in the front of the S1 to S16. They also do not have the :a, :b, or :c references. The reason for this is because Quiltster allows you to mix and match this block with other similar sized blocks. Since these blocks are all the same size and all show up as an A block, we've added an extra identifier of AA to AZ (depending on the block). This will help Quiltster keep your yardage chart straight when you use extra blocks. For this pattern, we have dropped the AB- in front of the fabrics to keep the names shorter and easier to follow. We also did not use the :a, :b, and :c because you might have any number of colorways in your quilt. You will need to apply these to your own pattern if you need to use them. Quiltster will show these fabrics as separate fabrics, but each will have the same reference number. Your Quiltster image will be your graphical reference to help you differentiate between different colorways used for the same block.

► **Quiltster Compatible**

Quiltworx.com has collaborated with a new company called Quiltster to bring you a fabric auditioning mobile application for our designs. A layout for **Diamonds in Bloom** is available that can be colored with your own fabric swatches to preview your quilt before you make it! To learn more, visit [Quiltster.com](http://Quiltster.com)!

**NOTE - 2-1/2" Strips:** The 2-1/2" strips are cut out of the total yardage shown. To help address the possibility that you cut a 2-1/2" strip wrong, we have rounded yardage with a lot of strips up by an 1/8th yard. If you want more yardage of other fabrics, this is up to you!
