

## CUTTING INSTRUCTIONS: BAG #4

**Step 1:** Remove (5) 5" x WOF strips from Bag #4, (3) from #C9 and (2) from #C10 along with the *Unit SB2 Template Layout Sheet*. There is (1) #C10 strip left that will be used for Step 5.

**Step 2:** Stack the strips *right-side-up* and sub-cut (4) 5" x 10" rectangle stacks for a total of (10) from #C9 and (8) from #C10. Cut (4) 5" x 5" squares from the leftover fabric from #C9 and place into Bag #5.

**Step 3:** Restack the rectangles, *right-side-up*, with #C9 on the top and #C10 on the bottom. Place the *Unit SB2 Template Layout Sheet* on top of the stack and cut on the Interior Cut Lines, in numerical order, until you have cut the Template Layout Sheet and fabrics beneath apart.

**NOTE - Unit SB2 Template Layout Sheet (TLS):** There is only (1) SB2 TLS in this pattern. If you cannot cut through all (18) layers of fabric at once, you have our permission to photocopy the TLS. It also works to simply tape the pieces back together on the cut lines after cutting the first stack to cut the second. Or, just flip the template, once it has been cut, over and over, to cut the rest of the pieces.

**Step 4:** Sort by color, then clip the Fabric #C9 into (12) stacks of (4) pieces and Fabric #C10 into (10) stacks of (4) pieces. The pieces you have cut are directional. Half of each color will go with SB-L and half will go with SB-R. Since you only have (5) templates, do the following: Label (2) as SB-L, then clip one to a #C9 stack and one to a #C10 stack. You will need a small piece of paper to label (5) more #C9 stacks as SB-L and then use an arrow to point to the sew-side as shown by the template. Label (4) more #C10 stacks as SB-L with an arrow the same way. All of these triangles will point to the right. For SB-R, FLIP the (2) Templates over, then label them as SB-R and put arrows facing towards the sew side. The Triangles will point to the left. Use a small piece of paper to label the remaining stacks as SB-R and place all into Bag #4.

**Step 5:** Remove the remaining (1) 5" x WOF strip from #C10, along with *Templates SB1 and SB3*. These templates are *DIRECTIONAL* so pay special attention to these instructions!

**Step 6:** Fold the strip in half, so right-sides are together. Use *Template SB1* to cut (4) stacks of triangles, stack the triangles that are *right-side-up*, and clip together. Stack the triangles that were upside-down and clip together. Label the stack that was *right-side-up* as *SB-R, Sec. 1* and the stack that was upside down as *SB-L, Sec. 1* with a sticky label. Then place the pieces back into Bag #4.

**Step 7:** Use *Template SB3* to cut (4) stacks of triangles to go with Sec. 13 on Units SB-R and SB-L. Again, the pieces that were facing up go with SB-R, while the pieces that were facing down, go with SB-L. Clip together, label, and place back into Bag #4.

## CUTTING INSTRUCTIONS: BAG #7

**Step 1:** Remove the (4) 5-1/2" strips cut from color #C5, along with *Templates 1 and 2* from Bag #7.

**Step 2:** Stack the strips, *right-side-up* and position the Template 1 and Template 2 on top of the strips as shown in the graphic. Cut carefully around the Templates, then clip the Template to the top of each stack and place back into Bag #7.

**Step 3:** Remove the 11" strip from Fabric #C10 and Template 3 from Bag #7.

**Step 4:** Cut (4) pieces to the shape of Template 3. Then, when you have cut the Template 3 pieces, cut (4) 5" x 5" squares from the leftover fabric and place into Bag #5.

**Step 5:** Remove #C15 and cut (4) 1-1/2" strips to use for the sashing around the center of the quilt. Place back into Bag #7.

**Step 6:** From your binding fabric, cut (7) 2-3/4" strips to be used to complete a double-edged folded binding (directions at end) and place back into Bag #7.

**Step 7:** Leave the backing material in the bag until you are ready to quilt!

## CUTTING INSTRUCTIONS: BAG #5

**Step 1:** Remove (1) 5" x WOF strip from #C10, along with *Templates SB4 and SB6*.

**Step 2:** Cut (4) pieces to the size of Template SB4 and (4) pieces to the size of SB6, clip together and place back into Bag #5.

**Step 3:** Remove the (4) 5" x 5" squares from #C9, along with Template B5. Stack the squares, *right-side-up*, and place Template B5 on top. Cut around it, clip the template and pieces together, and place back into Bag #5.

## CUTTING INSTRUCTIONS FOR BAG #6

**Step 1:** Remove the (8) 6-1/4" strips for #C11, #C12, #C13, and #C14 (in the case of the cover quilt, these are all cut from the same fabric). Stack these, *wrong-sides-together* on the cutting table.

**Step 2:** Find *Template OB1* in Bag #6 and use it to cut (9) strips, the shape of the template, from the stack of strips. Clip together and place back into Bag #6.
