

RAINBOW CRYSTAL BLOCK AND T-TEMPLATE

The Blocks below can be used as a guide to place your finished units as you prepare to assemble your quilt. If you are referencing the quilt on the coversheet, please rotate the coversheet so it is oriented as shown below (with the Red fabrics to the top). This will help you visualize where each group goes easily.

LAYOUT AND QUILTSTER COMPATIBILITY

The layout below can be used to color a sample of your quilt using colored pencils if desired to test out optional colorways. There are additional print outs available on our website for each pattern under the Official Samples listing if you want to do more than one. However, we strongly encourage you to try Quiltster for this layout! With Quiltster, you can quickly apply real fabric images, create your own unique look to this quilt, consider optional borders (which can be purchased separately), and explore ways to mix and match these units with others that will be designed in the future! In Quiltster, you can rotate fabrics, use your own colors to create a strip package for this quilt that is unique to you, and more! Not all the Fabric References are shown. Where appropriate, the Color Group from a Quiltworx Strip Set is used.

ACKNOWLEDGEMENTS

Foundation Papers designed by: Judy and Bradley Niemeyer

Colorway done in Quiltster by Judel Niemeyer
