**NOTE - Strip Size for Fabrics F5 and F6 Correction:** When we wrote instructions and did the quilts for our sample classes, we used 4" strips. And, they fit. But the piece for Sec 4 on F6R and F6L is a tight fit. So, we decided to move that to 4-1/2". Then, we decided to change them all to 4-1/2" so you cut them the same. But, we missed changing this in Quiltster and in the tables. If you have cut 4" strips, everything will still work fine! You will have enough fabric. It will fit even the last piece, but it will just be a tighter fit than the others. Also, if you have a kit that was cut before January 28th in the Montana Sapphire/Little Sweetheart/Amethyst/and Hoffman colorways, cut all 4" strips for all but F6:a and F6:f. For these two, cut (1) 4-1/2" strip. If you cut all 4-1/2" strips, you may be short on yardage.
