

Step 8: Sew on Line 1. The stitches should start and stop along the edge of the paper. Starting and stopping just past the end of each line makes it possible to cut the thread ends off when you trim your papers. Complete the sewing on each Unit before moving onto the next step. Loosen the glue under Sec. 1. Then press the fabric on the backside of each paper.

Step 8

Sewing the (TRP) Lines: When the paper piecing is complete you will need to sew on the registration lines. These lines are marked on the paper with the letters TRP, around the perimeter. Sew on the lines using a basting stitch of at least a stitch length of 2.8. Sew from the inside to the edge. After sewing the (TRP).... Lines, trim off the excess paper and fabric on the dark solid line around the perimeter of the printed paper for each unit. Don't ignore trimming the Smart Corners! These will help your blocks match up perfectly during assembly. The paper is not removed at this time. Place all of the pieces back into their respective bags.

Repeat the Previous Steps for Unit BL: Unit BL is pieced the same way, the block is just a mirror image and you start with the accent, then sew the background on.

GROUP C: GENERAL INFORMATION FOUNDATION PAPERS AND TEMPLATES

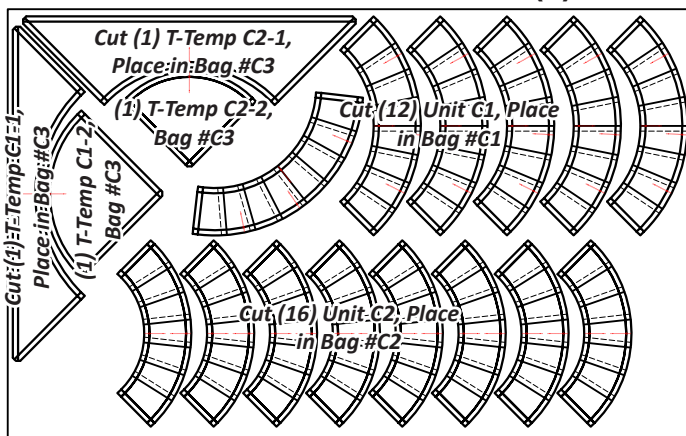

Ziploc Storage Bags: You will need (3) bags to complete the organization for the Units in Group C. Label your bags and sort your papers into your bags as follows:

- Bag #C1: (12) Unit C1 Papers
- Bag #C2: (16) Unit C2 Papers
- Bag #C3: T-Templates C1-1, C1-2, C2-1, & C2-2

► Preparing the Foundation Papers:

Step 1: Cut out (8) Unit C1, (12) Unit C2 and (1) of each T-Template [NP 224]. See the newsprint graphics that follow for information on how to organize your units and templates into bags. **Refer to the General Information for additional instructions on how to prepare your foundation papers and templates.*
