

► (1) TP 716

Some copies of the newsprint included with JNQ 00272P1, Star Baby were incorrectly trimmed during production. As a result, the bottom 1/4" seam allowance line may be missing from T-Templates CL and CR.

If your templates are affected, measure 1/4" from the inside seam allowance line before cutting. Include this additional 1/4" when cutting your fabric to restore the missing seam allowance.

If the inside seam allowance line is also missing, or if you would like to verify the correct size, the cut fabric piece should measure 20.5" along its longest edge.
