Alternative 4 A: Small Side of Cactus with Spikes that are different fabrics and Large side of Cactus Solid, recommended if each block will be the same				2 Color Groups				

NOTE - I'm not Copying the Cover Quilts, I'm Using Quiltster: If you have used Quiltster to create your own colorway and have worked with a variety of Alternatives for each block, we strongly recommend you make notes along the way regarding which Alternatives you choose, and whether you choose to use the lock and Unlock buttons to create more Color Groups than 1. You can simply use the column labeled as Your Quilt to mark the Alternatives you selected, and how you locked or unlocked the blocks. Fill in each space for each group with something like 2 Color Groups. This will help you quickly navigate the instructions in the following Booklets so you know which cutting and piecing instructions you should follow.
