

HOPSCOTCH CUTTING

Fabrics C1:a to C1:p: Your pattern requires (16) 10" squares. Pair these into (8) contrasting pairs, (1) light and (1) dark in each pair. Place each dark fabric in (1) stack and the corresponding light fabric into another stack, with the paired fabrics in the same order. For organization sake, label the Fabrics C1:a to :h with :a on top, then the light stack should be C1:i to C1:p, with :i on top.

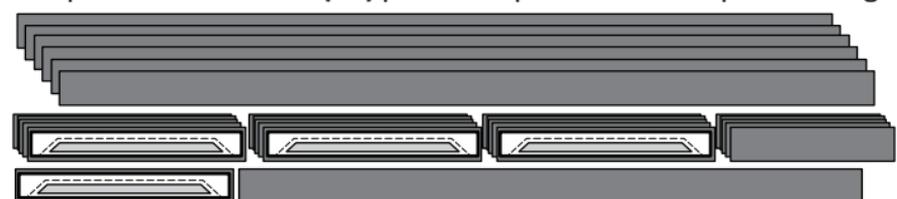

Place (1) **Unit CS6 TLS** on top of each stack. Cut the stack of fabrics and the TLS apart on the Cut Lines, beginning with Cut Line 1. For Sections 1, 3, and 7 place the dark fabrics on top of the light fabrics. For Section 5, place the light fabrics on top of the dark fabrics. Clip each stack of (16) fabrics together, and place in Bag #1.

Fabric C2: Cut (3) 1-1/2" strips, then stack and place **Temp CS6-2** on top and cut a total of (16) pieces. Clip the stack and place in Bag 1.

Fabric C3: Cut (6) 1-1/2" strips, then stack and place **Temp CS6-4** on top and cut a total of (16) pieces. Clip the stack and place in Bag 1.

Fabric C4: Cut (3) 1-1/2" strips, then stack and place **Temp CS6-6** on top and cut a total of (16) pieces. Clip the stack and place in Bag 1.

Fabric B1 (Optional): If you would like a border, we recommend a 3" finished border. Cut (2) 3-1/2" x 24-1/2" strips and (2) 3-1/2" x 30-1/2" strips from Fabric B1 (no graphic shown).
